PRODUCT DATA SHEET

CON LUBE 505

Item# (CL2020)

Soap-based Lubricant formulated to provide maximum value and conveyor performance. Provides exceptional lubrication and soil elimination.

LUBRICANTS

PRODUCT FEATURES:

- Keeps conveyors operating smoothly and reduces electrical usage.
- Built-in water conditioning agents prevent scale formation.
- Formula is designed for use in all types of food processing plants.
- Eliminates soils while lubricating to extend conveyor life and limit deposits which can harbor bacterial growth.
- Concentrated for exceptional value.

USE INSTRUCTIONS:

CON LUBE 505 is applied with the following dilution ratios which are based on water quality: 0 grain hardness; use 1:300, 1-10 grain hardness; use 1:200, 10-20 grain hardness; use 1:125

TECHNICAL DATA:

Form	Liquid
Color	Clear/Straw
pH (as-is)	9.0-10.0
Phosphorus content	None
Odor	Aromatic
Specific Gravity	1.036 @ 60° F.
Weight per Gallon	8.63 lbs.
Wetting Ability	Excellent
Biodegradable	Yes
Active Ingredients	42.6%
Inert Ingredients	57.4%
