PRODUCT DATA SHEET

MAXIMUM POWDER

Item# (CL4850)

SPECIAL CHEMICAL CLEANERS

MAXIMUM POWDER is our premium powdered alkaline, foam controlled detergent for use in spray cabinets and automatic wash systems for cleaning parts and equipment. Formulated to attack dirt, oil and heavy grease.

PRODUCT FEATURES:

- Safe on multiple metal surfaces including aluminum and alloys.
- Safe on most painted surfaces, plastic or rubber parts.
- Attacks and destroys carbon, heavy grease, lube oils and soils.
- Controls foam build up at warm operating temperatures above 135° F.

USE INSTRUCTIONS:

MAXIMUM POWDER can be used at 4 ounces per 1 gallon of hot water. Place the Maximum Powder on the cabinet floor. Close the cabinet door completely and activate sprayers for about three minutes to dissolve the cleaner. Concentration can be monitored by the use of an alkalinity titration kit. The temperature range recommended for cleaning is 135° to 190° F; typically for 5 to 30 minutes.

TECHNICAL DATA:

pH (use dilution)	Approcimately 11.5 to 12.5
Color	White
Rinseability	Excellent
Odor	Negligible
